About CODit

CODit, founded in 1999, is an innovative IT service company focused on integration projects using Microsoft technology. With its headquarter in Wilrijk, Antwerp (Belgium), the company implements different types of integration projects such as B2B, EAI, ESB, SOA & BPM. CODit's expertise and experience help its customers to reduce the risks and investment needed to implement integration projects within their organization.

Besides consultancy services, CODit also operates the only dedicated Microsoft BizTalk Support Center in Europe, focusing on the business continuity of our customers by providing SLA pro-active support based on the customer his specific needs.

Our Core business is to deliver services, support and products that make integration projects (EAI, B2B, ESB, SOA ...) more agile, flexible and cheaper for our customer. We have companies in many different industries such as DANONE, SABIC, SCA Packaging, DSV, ArcelorMittal, Ahlers, Mohawk

CODit operates out of Belgium, France and Vietnam and has a revenue of 3.5M€ employing over 35 technical consultants.
